

Managing IT Costs

Discover How To Save 30-50% Of Your Computer Operating Costs While Virtually Eliminating Downtime and Unexpected Costs

Do you ever get frustrated with your computer systems or email? Do systems act up when you need them the most? Is IT distracted from building new solutions for your business? We can help keep basic systems up and running, decreasing costs and allowing you and IT to focus on improving the business. We take the confusion out of your technology. Our goal is to give you IT peace of mind.

We introduce clients to new technologies that save them an average of 30% to 50% on technology costs each year. We've proven that proactively managing your network always costs less than reacting to problems after they occur. After analyzing your business and IT we can show where bundling our partners revolutionary Flat-Rate I.T. Support Programs with Proactive Network Monitoring Service can drastically reduce costs and increase uptime and business productivity.

Discover how our clients:

- **Reduced Costs-** Organizations are hiring our groups of highly qualified computer experts to use the power of the Internet to support and save tens to hundreds of thousands of dollars in operating costs instead of retaining or acquiring new in-house IT staff.
- **Get Hassle-Free Repair** – Employees are enabled to get their computer problems remotely diagnosed and fixed quickly, without disturbance, added cost, or the stress of waiting for an onsite tech.
- **Gain Peace Of Mind** – By creating a computing environment that is productive and effective, business owners gain peace of mind knowing their computer networks managed by our partners are continually monitored and updated to ensure the business does not suffer from unexpected downtime.

If you are new to us and would like to learn how to improve your IT support while reducing costs, I'd like to invite you to a **COMPLEMENTARY IT and Business Process Assessment**. One of our Consultants will meet with you, discuss your concerns, and evaluate your systems to insure you're getting the most out of the Technology you've already invested in. You'll know exactly where you stand from a Technology and Business perspective after this complementary service. We offer this service to you so that you can get to know us better without any risk, so please call us today at 212-247-2502!
